**Special interests / hobbies:**

- ◆ Being on our boat at the lake
- ◆ Sports- watching or playing- especially the Royals and Chiefs
- ◆ Finding the best KC BBQ
- ◆ Reading a good book

**Favorite memory as a Hornet:**

I could go on and on about my list of favorite things about being a Hornet but if I have to list just one then I would chose spending time the is Center for Student Involvement. I was involved with UAC as well as Greek Life for all four years so I spend many, many, many hours in the CSI both doing work and socializing. The opportunities I was awarded by being involved with both UAC and Greek Life are far too many to ever count. I loved planning the Homecoming Yell Like Hell competition, bring speakers like Judy Shepard to campus and planning Flintstock Music Festival.

**Favorite college class or professor:**

My favorite class hands down was Social Deviance with Dr. Terrell. This class opened my eyes to a whole world I did not know existed. I defiantly learned a lot of information that has continued to help me in working in higher education!

The class that helped shape me the most and prepare me for my future was Advance Public Speaking with Dr. Lehman. The first ever speech I gave in Advanced Public Speaking Dr. Lehman gave me a B because he said I moved my toes too much during my speech. At first I was MAD about getting a B then I realized it taught me from then on out that people pay attention to the little details in public speaking therefore I am still aware of that in every speech I give to this day!

**Committee Assignments:**
